

CELEBRATION OF TREES

White Oak
Quercus alba

CHARACTERISTICS

Height: 50 – 80'

Width: 50 – 80'

Identification: A large deciduous Arkansas native tree of the white oak group. It typically occurs in dry upland slopes and ledges as well as lowland valleys and ravines throughout the State. Grows to 50-80' tall in cultivation and taller (to 100') in the wild. Pyramidal when young, but matures into a substantial tree with a wide-spreading, rounded crown.

GROWING CONDITIONS

Native Habitat: Southeastern United States

Water: Medium to wet

Sun Light: Full sun

BENEFITS

Grown as a large shade tree needing lots of space. Acorns are a valuable source of food for wildlife.
