In this episode Michael sits down with Jeff & Phyl Amerine to discuss the early beginnings of what grew to become Startup Junkie, and the journey that led to today. Jeff takes us back, almost 10 years to the day, to when Tom Dalton and Jeff began Innovate Arkansas in NWA. This is what began the non-traditional business model that Startup Junkie still operates under High-quality consulting at no cost to the entrepreneurs. Jeff shares stories of different triumphs and plenty of hurdles the team's encountered along the way, and how he's never lost sight of the values that were cultivated from the very beginning.
