### [Fayetteville Parks & Recreation Discord Server](#)

Please join the Fayetteville Parks & Recreation Discord Server to receive push alerts regarding program announcements, schedule updates, or rainouts. This will be the only method used for rainout communication. We recommend you download and log in to the app on your phone so you receive these alerts as push notifications.

We make the decision on rainouts at 3:30pm of that night's games or 8:00am on the weekend. If games are rained out, you will receive a push notification through discord. If no messages are sent out, games will be played as scheduled.
